GC Man Robbed; 3 Homes Entered

Strongarming Victim Hospitalized After Beating by Four Men

A Granite City man was strongarmed, beaten and robbed and three homes were burglarized in the Quad-City area during the weekend, according to area authorities.

James Rushing, 38, of 2065 Thirteenth street, was beaten and robbed of about \$16 by four men who assaulted him at about 4 a.m. Saturday outside a Madison tavern near 12th street and Grand avenue, his wife reported to Madison police.

She said one of the men held his arms behind his while the other three beat him and went through his pockets. They emptied his wallet containing his driver's license, paper and photographs, in addition to the cash, and also took an inexpensive knife, cigarette lighter and a stainless steel wrist watch.

She said he recovered enough to drive home but his vision was blurred and blood was over his shirt, and he was taken to St. Elizabeth Hospital for treatment.

Wallace Goode, 2624 Lincoln avenue, reported at 3 a.m. Sunday that a television set, a radio, two suits, a topcoat, two shirts and \$50 were stolen in a burglary at his home after 3 p.m. Saturday. A entry was gained through a rear door.

William Masters, 2924 Victory drive, reported at 10:20 p.m. Saturday that after last Tuesday someone entered his home and took \$450 from under a mixer.

A break-in at the home of Bruce Foster, 2612 West 26th street, was reported to sheriff's deputies at 5:45 p.m. Saturday by Charles Moore, a neighbor, who said he saw four youths flee from the rear of the Foster home. Mr. and Mrs. Foster are on vacation, deputies said. Entry was gained by prying open a storm door and kicking in the rear door to the house. Deputies said they were unable to determine if anything was missing pending the return of Mr. and Mrs. Foster.

Two boys, 10 and 12 years old, were arrested at 23rd and State streets after police discovered a burglary at Roman's service station, N. Washington and Madison avenues, at 7:25 p.m. Saturday.

A window was broken, and a police dog went through the window to check the building. The dog cut his paw in the process. After an employee opened the building, it was found that \$5 in pennies from a cash register and four cases of soda were stolen.

A pinball machine was broken.

Armored Car in Vietnam Displaying GC City Sticker

Granite City may not boast owning a city flag, such as requested recently by a GI in Vietnam. But, an Armored Personnel Carrier (APC), operating in the combat area, is duly registered and tagged with a city auto sticker which officially declares its operator as a local resident.

A letter received yesterday by the Press-Record from Army Specialist Four Gary W. Barron, a local soldier who had written earlier to Mayor Donald Partney requesting a city flag to mount on his APC, reports that he was sent a "laminated city sticker to attach to his carrier."

The serviceman is the husband of the former Nancy Allen who resides with her mother at 2021 Forrest avenue, and the son of Mrs. Melvin F. Penberthy, 2920 Forest avenue.

Pratt Barron, 29, writes—"I just want to say that I think we've got a pretty good Mayor. I wrote to him about three weeks ago and asked him if he knew of any way that I could get a city flag. He wrote back and told me that we didn't have one, but he did send me a laminated city sticker. I put it on my APC."

"I'm wondering if you could run a couple of lines in

the Press-Record for me. Please put in—"Thanks a lot Mayor Partney. You are number one in my book from Sp/4 Gary W. Barron."

According to city records, Gary was sent auto sticker No. 15,989. His earlier request for a special trailer with a flag may lead to the design and adoption of a city flag, not only for Granite City but flags for Venice and Madison. Mayor Partney turned the letter over to the Tri-Cities Chamber of Commerce for action.

The new 750-gallon-per-minute pumper truck with a 1000-gallon tank increases the carrying capacity of the department to 3250 gallons of water.

The pumper is being equipped with two-way radio on the Madison County Fire Fighting frequency, as are the other vehicles of the Long Lake department.

With delivery of the new pumper truck last week, the department now has four pumps along with its rescue truck and a special trailer with a 750-pump pump. Plans are under way for a new rescue vehicle.

The new truck also features the latest safety equipment—"Mars" "bobbing" light to warn motorists of its approach, and a triple-siren as well as a conventional flasher and warning lights.

Members of the volunteer department designed the new truck and it was built according to their specifications by Towers Fire Apparatus Co., Freeburg, Ill. It has the most powerful Ford engine made.

Testing of the new truck will be carried out at Long Lake, where it was built from the fire house. Water will be drawn from the lake for the tests.

Mail Plan Announced For State Traffic Fines

Motorists ticketed on minor traffic charges by state police may enter automatic guilty pleas and pay their fines by mail, according to a plan announced by Chief Circuit Judge Harold R. Clark and Willard Portell, clerk of the court.

The clerk will provide state police with self-addressed envelopes which the defendant may forward with the fine and costs to the clerk.

It was devised as a convenience to the public. Defendants previously were required to appear in Edwardsville.

Persons preferring to plead not guilty will be given a designated court day to appear and will be assured that troopers and witnesses involved will be available to prevent trial continuances.

All appearances now will be entered on the lower floor of the courthouse in Edwardsville either by mail or in person.

Arrangements will be made so that trials may be scheduled anywhere in the county for the convenience of the defendant, attorneys and prosecuting attorneys, Portell said.

New Truck in Service; Also Tests Today for New Fire House Siren

Full-scale testing is scheduled this week for a new \$23,000 pumper truck delivered to the Long Lake volunteer fire department.

Fire Chief Jack Harper said the 28-member department actually will be testing two new pieces of equipment. "We also have a new fire house siren on the fire house at Pontoon Beach that we'll be testing today and this week."

Burglar Pair Flees Under Fire Early Today

Two men found in the act of burglarizing a Venice apartment escaped under gunfire by Venice and Madison police early this morning, but left behind a 1968 model auto which police impounded.

A third burglar was believed by police to have been at the scene, but escaped as officers from Madison and Venice arrived at the site.

Venice police said they were called about 3:30 a.m. and told that several men had broken into the apartment of Otis Butler at 520 Mercedia street.

They asked Madison officers for assistance and cars from both departments arrived at the apartment house a few minutes later.

They were met by John Nelson, occupant next to Butler's, who told officers he had heard the doorbell in Butler's apartment ring and that when he looked out he saw several men walk around the building to the rear. The burglars cut the screen from a door and one of them wrapped a towel around his arm and broke the glass out of the rear door. Butler was in the act of the door.

Venice Patrolman John Kitle and Algie Crawford entered the apartment through the rear door and said that as they approached the house and look for him.

Meanwhile officers learned McNair was in the house and called to him to surrender. McNair remained in the house and shortly before 10 p.m. police called "headquarters" for fire gear equipment. By that time all Venice officers and Madison officers from the Madison force were on hand.

Renewed efforts were made to get McNair to come out of the house by talking to him without success. On orders by Ralph Brawley, Venice assistant police chief, K-9 Patrolman Ronald Grzywacz of the Madison force fired two shells of tear gas into the attic window, forcing a canister of gas in a basement window on the east side of the house and threw another into the basement through a window on the west side.

Grzywacz then threw a canister of gas into the rear of the house as Brawley tossed one through the front door. Police said they waited about an hour but McNair did not leave the house.

Tear Gas Used to Subdue Suspect in Murder Case

A man and a woman charged by Venice police with the murder last November of O. C. Ward, 66, of 1235 Logan street, were arrested Friday night after authorities laid siege to the Ward home in Venice for nearly two hours to arrest the man and finally subdued him with tear gas.

Arrested and held today in the Madison county jail at Edwardsville are Mrs. Priscilla Ward, 37, of 1235 Logan street, and Eugene McNair, 40, who gave his address as 1225 (r) Logan street.

McNair without the effects of two shells of tear gas fired from a gun and four canisters of tear gas thrown into the Ward home by officers without fleeing from the house. He was found unconscious in a bed called by police who were wearing gas masks.

When overcome by the tear gas, police said, McNair had a hatchet in his left hand and a knife with an opened blade near his right hand. No guns were found although officers had been informed earlier that the suspect had two guns.

Armed with murder warrants issued by the circuit court on complaints filed by Venice police, authorities went to the Ward home about 9:30 p.m. Friday and arrested McNair and Ward. Police said they were certain that McNair "was around" but they had no search warrant to enter the house.

They contacted Mrs. Ward's attorney to obtain permission to search the house and look for him.

Meanwhile officers learned McNair was in the house and called to him to surrender. McNair remained in the house and shortly before 10 p.m. police called "headquarters" for fire gear equipment. By that time all Venice officers and Madison officers from the Madison force were on hand.

Parents to Press For Expansion in Special Education

Improved coordination of Granite City school district's special education program will be sought by the Parents Committee on special education through further presentations to the board of education, members of the group decided in a meeting at St. John United Church of Christ Thursday night.

The group plans to meet in about two weeks to determine further steps its members will take in their efforts to develop an expanded special education program, according to Mrs. Jean Fisher, chairman of the Parents committee.

About 25 members of the committee attended the meeting Thursday and discussed improvements suggested to school officials, including requests for a coordinated program providing more gradual adjustment of pupils in moving from one phase of training to another. The Parents committee contends also that the school district needs more psychologists to test educable mentally handicapped and trainable mentally handicapped youngsters to determine their proper training niche.

100 Pupils Waiting
Mrs. Fisher pointed out in the meeting that there are about 100 pupils that have not yet been tested and are on a waiting list for assignment to classes. She said the children cannot be properly placed for adequate training without psychology tests.

Mrs. Fisher and Mrs. Grady reported on their attendance at the state convention of the Association for Aid to Retarded Children which was held in Springfield recently.

Mrs. Fisher and Mrs. Grady also commented on their appearance before the board of education in a meeting earlier this month at which time the two women repeated their requests for expansion of the program.

To Resubmit Letter
In Thursday night's meeting a letter to school administrators setting forth objectives of the group was approved for a second submission. The letter was signed by all members of the committee. The letter included a request for a written answer as to what school officials plan to do about special education in the 1969-70 school year.

A letter from Jan Holloway, regional Illinois consultant on special education, in which she said the Granite City program met state minimum requirements was presented and Mrs. Fisher pointed out that minimum requirements fail to meet the full needs of the program in Granite City.

School District Gets \$4.7 Million Check

Granite City School District 9 has received its \$4,750,000 in bond proceeds to finance new school construction.

A check in that amount was delivered Thursday by the LaSalle National Bank of Chicago to School Treasurer George Moore, School Supt. B. J. Davis and School Bond Atty. William Schooley.

The three officials went to Chicago where Moore placed his signature on 850 bonds of \$5000 denomination each as the final step in the bond sale to a group that included the LaSalle bank. School board president Dr. E. K. Walton and Board Secretary Donald Stucke signed the bonds earlier last week.

Under action taken by the board in its May 12 meeting, \$250,000 of the amount will be used as a cash reserve to meet immediate costs, while \$2.5 million will be invested in treasury bills and \$2 million invested in Federal mortgage notes. The board also has approved a motion that all investment of funds pending development of the school building program be handled by local institutions.

Area Council PTA Holds Installation

Dr. Benjamin T. Rose, 46 Cambridge drive, a local optometrist, was installed as president of the Granite City PTA Area Council in ceremonies Thursday evening at Maryville grade school. He succeeds in office, Mrs. Twila McKinney.

The annual installation was combined with a "School of Instruction" for new PTA officers and chairman from District 29, Illinois Congress of Parents and Teachers. Several state and district officials participated in the program and supervised simultaneous workshops for incoming officers.

Other council officers installed for 1969-70, included James Dumont, Coolidge junior high school principal, vice-president; A. E. Menendez, principal of Mitchell grade school, treasurer; Mrs. McKinney, recording secretary; and Mrs. Alma Burnett, corresponding secretary.

The meeting opened with the flag pledge and reading of the PTA Prayer by Mrs. Burnett. Mrs. McKinney presided and introduced several guests, including Mrs. Thomas A. Holland of Wood River, District 29 director, who reviewed legislation involving schools, to be voted shortly in the Illinois General Assembly.

Mrs. Holland urged all PTA members to write their state senators and representatives to voice their opinion on House Bills 1116 and 2350. She reported the Illinois PTA Congress strongly opposes both legislative measures.

House Bill 1116, Mrs. Holland advised, has been amended to become a bill for the Purchase of Services of Secular Education from non-public schools.

This means, she explained that the state of Illinois would pay, to all non-public schools, an amount of \$60 for each elementary school student and \$80 for each high school student, in exchange for the education in non-religious subjects which the schools are providing. The total appropriation would be about \$32 million, she said.

The PTA district director said that the House Bill 2350 is a bill for tuition grants. The state of Illinois would issue vouchers in the amount of \$48 for each elementary student and \$60 for each high school student, which parents would turn over to the non-public schools who would then return the vouchers to the state for reimbursement. She noted that the amounts listed are flat

2 Professional Model Ambulances in Service

Merced Mortuary, 1416 Niedringhaus avenue, has received delivery of two new 1969 model Professional Ambulances which have been placed in operation to provide full service in any emergency.

The ambulances were specially built for Merced by Superior Coach Co. of Lima, Ohio, under designs and specifications handled by Robert Thomas, Madison county coroner and an operator of Merced Mortuary.

Thomas said the new ambulances are fully equipped. The chassis are Cadillac Commercial model 86 with special brakes, suspensions and electrical systems. The bodies are "high headroom" designs and can carry four patients. They are designed and equipped to comply with all state and federal regulations governing the ambulance field.

Oxygen, Radio Equipped
There is a complete oxygen and aspiration system in each ambulance and both are equipped with two-way radios for communication with firemen, police, the hospital emergency room and Merced headquarters.

The vehicles are equipped also with year-around heating and air conditioning and with electrical systems that allow use of incubators for premature babies, electrical appliances and tools at remote accidents.

Thomas said the most modern warning devices have been

Each ambulance also has flashing red lights and a large revolving light on top. The ambulances are the first of their type to be operated in southern Illinois, Thomas said. Fred Henry Tanner, 18, of 1926 Sken street, Madison, was charged with intoxication, leaving the scene of an accident and driving without a license. His auto struck the rear of the parked car of Archie Lupardus, 2441 Edwards street, shoving it into the rear of the auto of Edward Hamilton, 2624 Delmar avenue.

The Tanner auto was abandoned at the rear of the Illinois State Employment Service office, 21st and Iowa streets, where four persons jumped out and ran. Three of them were picked up by police while walking at 20th street and Madison avenue but were not charged. A tow truck was dispatched to move the Tanner car.

Army duty on Jan. 23, 1968, while in his senior year at Granite City high school. Initially, he was stationed in Germany with an artillery unit, but volunteered to serve in Vietnam and transferred to "C" Troop, 4th Cavalry, 25th Infantry Division, about three months ago.

The soldier is based about 25 miles northwest of Saigon, near the Cambodian border. According to his mother, considerable action has been taking place in that area.

Recently, Sp4 Barron suffered a severe cut to the forehead, requiring 16 sutures and confinement of two weeks back at base camp. He received the injury when he struck the sharp edge of a metal bunker roof as his unit came under enemy attack and the troops died for cover.

"A guy doesn't know how much he really cares for his home town until he comes to Vietnam or any other place like this," the serviceman said in his letter to the mayor.

Gas Rate Hike Unlikely Here

Illinois Power Co. has no immediate plans for seeking a hike in rates for users of natural gas in the Quad-Cities area despite plans of one of the company's suppliers to seek a 10% rate boost, Carl Mathias, manager of the Illinois Power Co. in Granite City, said Friday.

The Mississippi River Transmission Co., major supplier of natural gas in the St. Louis area, announced plans to seek the 10% rate increase. In St. Louis, Laclede Gas Co. already has filed an application for a 7.25% rate increase because of higher costs other than gas purchasers.

Mathias pointed out that Illinois Power Co. receives its supplies from several sources and that Mississippi River becomes a gas supplier to Illinois Power only in times of peak gas consumption.

It is conceivable that if Mississippi River gets the 10% raise it wants, Illinois Power could not absorb the total increase and in all likelihood would pass along part of the increase to its customers," Mathias said.

He pointed out, however, that thus far there has been no consideration of plans for a rate hike of any kind.

Warrior Track Team Places Third in Conference Meet

Granite City high school varsity trackmen finished third while the Warrior sophomores took second at the 47th annual Southwestern Conference track and field meet held on the GCHS field Friday. As forecast, the state champion Alton team was first in both divisions. Granite Cityans earning first place honors were: varsity miler Rick Rose, sophomore high jumper Don Smith and the sophomore mile relay team of Smith, Rich Wittcomb, Vernon Lux and Frank Hamilton.

Many competitors had the potential to break records, but the very cool temperature and rain soaked track allowed only three new marks.

Bruce Ferry of Belleville-West clocked a new record time of 9:55.3 in the two-mile run, set the previous year by himself.

Belleville West's, Tom Stock put the 12-pound shot 89' to lengthen the record distance thrown by Alton's Paul Economides in 1963 of 87' 4".

Collinsville's Steve Birger sailed the discus 172' 9", flying over the old record of 171' 13" by Tom Bayless of East St. Louis in 1968.

Simpson, Warrior Cage Star, Signs with LSU

Gary Simpson, the Granite City high school basketball star, has become Louisiana State University's third signee this spring.

LSU's freshman coach Greg Bernick said, "The first time I saw Gary play, I was really impressed with his dribbling and passing. He has tremendous peripheral vision and hardly ever misses the open man, and he is practically unstoppable one-on-one."

Simpson, a six-foot guard, was named to every major All-State team throughout the state. He scored 672 points for an average of 26.0 points per game. The two-time All-Southwestern Conference choice, he's 52% of his floor shots and 82% from the charity stripe. He barely missed unanimous selection on the Associated Press All-State squad.

A pre-season All-American pick, Simpson was listed among the nation's 100 top collegiate prospects by the "1969 Basketball Yearbook."

His junior year's statistics, while impressive, show the improvement that is Simpson's trademark. Scoring 572 points for a 24.3 average, he shot 46% from the field and 77% from the foul line.

GCHS head basketball coach, Don Detarding, believes that Simpson is a top-notch prospect. "I feel that Gary is one of the finest athletes I have ever coached and his improvement year by year shows his dedication. He is a popular young man with tremendous potential and I feel certain that (LSU) Coach (Press) Maravich will bring out the best in him."

Maravich commented, "Gary has the potential to be a real star in the Southeastern Conference. He is a fine outside shooter and his ball handling ability and speed make him a dangerous driver. I feel that he will be a credit to LSU and to our basketball program."

Simpson intends to play both basketball and baseball at LSU. He finished the season for the District Championship Warriors with a 320 plus batting average.

Former Resident Slain in North Fort Meyers, Fla.

Howard Lee "Rocky" Doss, 26, former Granite City resident until about six months ago, was shot and killed in North Fort Meyers, Fla., according to word received during the week-end by his aunt, Mrs. Gay Tindall, 2818 East 24th street.

Mrs. Tindall said she has been unable to obtain details of the shooting but heard reports that her nephew was killed in an altercated run with a man who molested Doss' stepdaughter while she was on a baby sitting job. She said she was informed Doss' assailant is being held by authorities in North Fort Meyers.

Doss lived in Granite City with his aunt for three years prior to last December and worked out of Carpenters' Local 833 on area construction jobs. Doss and his wife, Darlene, and their daughter, moved in December to North Fort Meyers where Doss was employed as a truck driver.

The shooting occurred late Friday night, Mrs. Tindall said. Doss' body is being returned to a funeral home at Murphysboro, with funeral services set at 2 p.m. Wednesday at Good Ridge, Ill., and burial in the Evergreen Cemetery at Ava, Ill.

More About Burglar Pair

proached the living room they heard the front door close. Crawford ran out the back around the building. He said as he turned the corner he saw two men running.

Crawford said he called to the men to halt and when they kept running he fired a warning shot. The ground hit, but the men failed to stop. He then fired at one of the suspects, but just as he fired, he reported, the fleeing man disappeared and fell. Crawford's shot missed him.

Officer Leon Bland of the Madison department also fired two warning shots, but the suspect did not wound either. A resident of the neighborhood later reported that he had seen a man jump the fence and flee down the alley as officers first arrived, indicating that three men were involved in the burglary, police said.

Police Impound Auto
Officers said they found nearly a 1968, two door model sedan believed to be the burglar's car. A search of the car produced a driver's license issued to Robert Campbell of East St. Louis. The car was impounded. Checking with East St. Louis police, authorities learned that Campbell's apartment had been burglarized Saturday and his wallet, containing his money and driver's license, stolen. The wallet later was found in the yard but the money and license were missing.

No Forms Required To Buy Ammunition

Hunters and sportsmen need only identify themselves to be able to purchase ammunition under the 1968 federal gun control law, the Internal Revenue Service said today.

There are no forms to fill out, but a person must show some identification to indicate he meets the age requirements set forth in the federal gun law. The Firearms Owner Identification Card required by the state of Illinois will provide such identification.

The 1968 Gun Control Act limits the sale of ammunition for pistols, revolvers and other handguns to persons 21 years

of age and over. Ammunition for rifles and shotguns may be purchased by persons 18 years of age and over.

IRS said that unlike the restrictions on the sale of firearms a person can buy ammunition outside his home state. A hunter on a trip or a sportsman attending a shooting match will have no problem obtaining ammunition as far as the Federal law is concerned.

Dealers are required to keep records of ammunition sales including the name and address of the purchaser.

An Open Letter To The General Public

(For your own interest and protection, we urge you to read all of the following:)

REALTOR is a service mark registered in the U.S. Patent Office under the trademark laws and may be used only by members of the National Association of Real Estate Boards.

We, the Granite Board of REALTORS (members listed on this page), along with the State and National Real Estate Boards of America are all celebrating "REALTOR WEEK." A proud birthright indeed and rightfully earned. The term REALTOR does not mean just any Real Estate Agent or Broker, but means an active "full time" professional member of the National Board and its member boards.

For more than 50 years the term REALTOR has always denoted honesty, integrity and "Professional Know How." It came into being in 1915 when Charles Chadbourn, a past president of the Real Estate Board of Minneapolis, on his way to a meeting, purchased a newspaper from a corner stand. He was horrified to see the caption splashed across the front page, "Real Estate Man Swindles Widow." Further the article revealed that the unscrupulous real estate man (not a member of the board), was a part time speculator with his office in his hip pocket or some dim darkroom. Nevertheless, by his act he had dishonored every Real Estate Man in Minneapolis including all the members of the board. Greatly disturbed by the harm done, Mr. Chadbourn set about finding a way to let the public know the difference between professional men of character and shady part-time operators. He evolved the title "REALTOR" which was immediately adopted by the Minneapolis Board. The next year (1916) at the National Convention, the term "REALTOR" was made a National Designation by the National Real Estate Boards of America. Over the years the term has come to mean "Honesty, Integrity and 'Professional Know How'—An office which any member of the public can approach with perfect safety, confidence and dignity.

ALWAYS CALL A REALTOR — REALTOR — REALTOR

ALL MEMBERS OF THE GRANITE CITY BOARD OF REALTORS, IN KEEPING WITH THE TIME-HONORED TRADITIONS AND HIGHEST STANDARDS OF OUR NATION, WILL BE CLOSED FRIDAY, SATURDAY, SUNDAY, MAY 30, 31 AND JUNE 1 IN COMMEMORATION OF OUR HONORED WAR DEAD

Pontoon Board Adopts \$27,638 Annual Budget

Pontoon Beach village trustees, meeting in regular session Thursday evening, adopted the 1969-70 budget and appropriation ordinance, totaling \$27,638, which exceeds last year's budget by \$13,885.

In other business, Mayor Thomas Stalcoff signed complaints for court injunctions, to be filed today, against Illinois Central, Chicago Northwestern and Illinois Terminal railroads. The injunctions seek to force the railroads to remove debris and clear clogged culverts and ditches off Highway 182 in Stallings, which continue to block drainage from Long Lake into Elm Slough.

"Each time it rains, the lake water gets higher and higher and something must be done about this situation," Stalcoff said. He noted that requests to the railroads asking them to correct condition of the culverts have been ignored, including letters sent as recently as April 4.

The appropriation ordinance, passed on second reading, listed a \$420 annual salary for a sanitary clerk, an increase of \$120 over the figure in the tentative budget. Stalcoff said the higher rate was approved after the clerk's duties were reassessed.

Mrs. Judy Williams, 5 Tulip court, was appointed May 1 by the village board of trustees as sanitary clerk, a newly-created position, to handle billing and collection of sewer rental fees from those residents utilizing the two village-operated systems.

The village president reaffirmed an earlier statement that the expanded budget will not result in a tax levy for Pontoon Beach residents.

Principal new items in the expanded budget, include \$6000 for drainage control and roadway repairs in areas not covered by motor fuel tax funds; \$3500, new police vehicle; \$1500, rabies control; and \$1500 for police radar equipment.

Trustees authorized payment up to \$250 for re-shaping drainage ditches in Lakeview subdivision, between Victoria and Fountainblow drives, by Bell Bros. Construction Co. of Pontoon Beach, and a \$1250 contribution as the village's share toward purchase of a new siren by the Long Lake volunteer fire department.

On a low bid of \$1195, Rad-Con Co. of Troy, Ill., was awarded a purchase contract for police radar equipment which is to be installed in a patrol vehicle. Trustees also

Madison Youths Raise \$270 In Benefit Hike

Rev. Goodloe Love, pastor of the Madison United Methodist Church, announced today a group of young people had earned \$270 as a result of participating in a "Hike for the Hungry" sponsored by the Belleville area churches.

Prior to the hike each person had solicited sponsors who pledged a certain amount of money to be paid for each mile hiked. The total hike was 24 miles with Fred Ballentine, Jannis Koller, David Orsborn and Brenda Jones completing the full course. Others who completed 10 miles were Susan Stephens, Maria Brawley, Betty Founts, Sharon Ballentine, Rev. Love and Gary Freeze, youth co-ordinator.

The total amount collected will go for the relief of hunger in the Mississippi Delta, Biafra, Latin America and India for self-help development projects, Rev. Love said.

County Zoning Board Sets Public Hearings

On-site public hearings will be conducted June 6 by the Madison county zoning board of appeals on three petitions for special use permits in Nameoki and Chouteau townships.

The first will be held at 8:20 a.m. on the petition of LaVerne Childers to operate a beauty shop in an R-3 one-family residence district in Chouteau township.

The petition of E. C. Barnhart to erect an office on each of four lots as described in an R-3 one-family residence district in Nameoki township will be heard at 9:40 a.m.

The third hearing will be held at 10 a.m. on the petition of Frank Aldridge to operate a beauty shop in his home in an R-4 single-family residence district in Nameoki township.

Hubbards Stolen

Fred Hartline, 1625 Edwardsville road, reported to Madison police that while his auto was parked at his home Thursday night a thief stole four wire-type hubcaps valued at \$125.

passed an ordinance requiring policemen appointed by the village officials to be residents of Pontoon Beach.

Letter Carrier in Drive Against 'Smut' Literature

Granite City Local 1132 of the National Association of Letter Carriers will take an active part in a nation-wide campaign to drive obscene literature permanently out of the postal service and thereby keep it out of the hands of youth, Edward J. Heintz, president of the Granite City local, announced today.

The fight against obscene material in the mail was a major topic of discussion at a recent Washington, D.C. conference attended by more than 3100 letter carrier delegates from branches of the national association throughout the country, Heintz said.

Locally, letter carriers are urging persons who receive such mail to mail it to their congressman with a note protesting delivery of such material. Heintz said that proper procedure would be for a recipient of obscene matter to take the mail to the post office personally and protest the matter to the postmaster. This is done to intrinsically, however, because of embarrassment to the person who received the matter, he added.

Important to Carriers. Heintz said that cleaning the mails of "smut" and obscenity is as important to the letter carriers as it is to the postal patrons and letter carriers are willing to do all they can to stop it. However, he said, the real job is up to the people who receive such literature.

"Smut peddling" by mail was already a multi-million dollar a year business several years ago," Heintz said, adding that "by this date it has undoubtedly grown in millions and will continue if the people don't do something about it."

Heintz said local letter carriers also are studying various

legislative reforms proposed for the postal service in Congress. Among these, he said, is a bill co-sponsored by Cong. Melvin Price (D-East St. Louis) who met with letter carriers during the recent Washington conference.

Cong. Price told the postal workers that he favors the department has labored too long under legislative, budgetary and procedural limitations creating an unfortunate public image," Congress, Price said, "should alleviate the postal crisis through a complete modernization program of the postal complex."

Return Act Provisions. Key provision in the Postal Reform Act is creation of a Postal Modernization Authority designed to insure the development and maintenance of a modern, well-managed postal facilities and services, Price said. Closely related to this are the establishment of a postal revolving fund and postal finance commission, "enabling the Postmaster General to utilize modern-day management and fiscal techniques in day-to-day operations."

Cong. Price pointed out that employment reforms also are included in the proposal. Postmaster appointments would be under civil service procedures and would "result in appointments being made from the ranks of career employees—something I have always favored."

Heintz said letter carriers in this area are critical of a program advanced by President Nixon which would convert the U.S. Post Office into the U.S. Postal Corp. with more money for postal modernization and greater authority to set postal rates and wages.

\$14,019 Senior Citizens Program Grant to EOC (Special from Washington)

Cong. Melvin Price (D), East St. Louis, announced Friday in Washington, D. C., that the Office of Economic Opportunity Grant, amounting to \$14,019 to the Madison County Economic Opportunity Commission.

He said the grant will fund employment, health, consumer and recreational services provided by the county anti-poverty agency for senior citizens during the next half year.

Grows flowering plants insect protection that won't wash away. It works systemically, inside the plant. Just work the granules in around the plant base. Then water. The insecticide is absorbed into the sap stream and protects from the roots up. When aphids, mites and other pests come to feed—they've had it!

Backs Bill to Upgrade Job 'Opportunities'

Shortage of decent job opportunities and the problems it presents to many people who sincerely want to work would be attacked through an omnibus manpower proposal co-sponsored by Cong. Melvin Price (D-East St. Louis).

The bill is known as the Manpower Act and is designed to correct present deficiencies in the development training field by consolidating existing programs into a "single, flexible approach to achieve coordination and avoid costly duplication," Price said.

Through government support the program would encourage employers to train employees to fill skill shortages within their companies and industries and, at the same time, create job vacancies in entry-level employment. Others would be employed by local government and private non-profit agencies.

One of the "real problems" today is the lack of advancement opportunities for entry-level employees "who are stuck in their slots," Cong. Price added. The bill would encourage upgrading efforts for the less skilled.
